ABOUT

Frontend Engineer with 5+ years of experience designing and building scalable web applications with React, TypeScript, and JavaScript. Currently at Paystack, building merchant-facing products and payment experiences serving 200,000+ businesses across African markets. Experienced in frontend architecture, API integration, responsive and accessible UI development, localisation, performance optimisation, testing, and end-to-end feature delivery. Collaborates closely with product, design, and backend engineers to translate complex requirements into reliable, maintainable experiences and improve engineering practices through technical reviews, pairing, and documentation.

TECHNICAL SKILLS

Core: JavaScript (ES6+), TypeScript, HTML5, CSS3, Frontend Development, User Interface Development, Financial Systems

Frameworks: React.js, Next.js, Remix.js, Redux, React Query, GraphQL, Express.js

Styling: Tailwind CSS, Bootstrap, Responsive Design, WCAG Accessibility

Tools: Git, GitHub, Firebase, Vercel, Netlify, Lighthouse

EXPERIENCE

Paystack

Frontend Engineer

Feb 2024 - Present

- Developed merchant-facing user interfaces for financial systems using React and TypeScript, with shipped features now serving 200,000+ merchants.
- Reviewed 10+ pull requests per sprint and helped reduce post-merge bugs by around 30% through consistent code review.
- Supported junior engineers through pairing and documentation, reducing onboarding time by a few weeks.

Frontend Engineer, Contract

Feb 2023 - Feb 2024

- Built and localized the product for Ghana, Kenya, Egypt, and Côte d'Ivoire, handling localization edge cases and cross-market testing across the frontend.
- Six months after launch in those markets, the product had gained around 50,000 new users, indicating that the localization work effectively supported regional growth.
- Kept a 95%+ code review pass rate throughout the contract.

Buzzz

Frontend Developer

Jun 2022 - Feb 2023

- Wired up 8+ REST endpoints using React Query - load times dropped by around 40% once I replaced the old fetch logic.
- Built 15+ responsive components with the designer; merge conflicts dropped by 60% after I set up a proper branching process.

EDUCATION

Ladoke Akintola University of Technology

Jun 2021

B.Tech, Chemical Engineering

McAdolph Institute of Information and Technology

Dec 2014

Diploma, Computer Engineering

ADDITIONAL

Interests: DSA, React Native, mobile development with Flutter/Dart, and open source when I can find the time.
